FINANCIAL AND COMMERCIAL.

THURSDAY, April 2-6 P. M. Gold has been very active and mercurial to-day It seems that some very heavy holders who had bought below 150 concluded that this would be a good day to realize profits, and at an early hour this morning sold it down to 1551/2. It afterwards rose to 1573/4, fell back to 1531/4, rallied to 156, fell back to 154, sold at 154, 153 and 152% in the afternoon, and closed 153% bid. It is stated on good authority that the measures before the stature for the repression of speculation in gold will fail, the pressure brought to bear on nembers by the produce and mercantile interests being too powerful to be withstood. It has likebeen urged with effect that these measures would practically drive business from New York to Boston and Philadelphia, and should not, on this account, be counteranced by the State Legisla-

Foreign exchange is inactive. The importers are not buying, and the bankers are not anxious to draw. At the close to-day the quotation was 167

a 168.

Money is very easy. The leading brokers are amply supplied at 5 per cent, and at 6 all the lenders have money to dispose of. The disbursement of the Sub-Treasury are enormous-even larger

The stock market was dull this morning, and the best prices of yesterday were not maintained.
Stocks generally showed a tendency to sympathize with gold. Pacific fell off 1/4, New York Central 14. Erie 14. Erie proferred 14. Rock Island 14. To-ledo 14. On the other hand the Harlems were ledo 34. On the other hand the marietan firm, Hudson River rose 1 per cent, and Cleveland and Pittsburg was very steady. Governments were weaker, on the fall in gold. There are large orders for government securities here on European account, which can only be exe-cuted when exchange reaches a certain point. From this cause we shall probably witness hereafter a closer sympathy between gold and governments than between gold and the railway or mis-cellaneous shares. At the close this morning the market was steady. In the public board, at one P. M., the market was extremely dull, and transactions were very limited. In the afternoon the general market was inactive and a fraction lower; but Harlem and Hudson were exceptions. The former rose 3 per cent, selling at 59; the latter was 1/2 per cent better than in the morning and in brisk demand. There was no change at the four P. M. call of the public board, except in Harlem, which dropped to 57. The following were the

per cent on call after ten days were very large indeed—over a million. The ease of money

prompts people to use their means in this way. The conversions were over \$700,000. The follow-
